## HPI RACING PRESENTS

A rear wheel drive 1/5th scale off-road buggy that is nearly 32" in length, Baja 5B comes as a "Ready To Run" car and is powered by massive 23cc gasoline engine, providing plenty of power.

The powerful Nitro RS4 3 Evo+ nitro touring car, with an aluminum tuned pipe included for blistering speed, improved heat dissipation, and extra strength.

### THE FIRST ELECTRIC POWERED SAVAGE MONSTER TRUCK!

Charge up, switch on, and enjoy the ride.

The new E10 series, entry-level cars with authentic drive performance and ingenuities you can never expect from toy cars.
